SIR

With reference to correspondence ending with your letter No 828/Edn 272-10 dated 24th October 1914 I have the honour to forward herewith a list of Primary and Secondary Schools in the Bangalore City and to state that the President City Municipal Council Bangalore states in his letter No 390 dated 18th August 1913 (copy enclosed for reference) that the Bangalore City Municipality is unable to meet the additional charges (amounting to Rs 7596/- per annum) if the proposal to transfer all the Primary schools in the Bangalore City to the Municipality and all the Secondary schools to the Government is to be carried out In connection with the introduction of the Compulsory Education Scheme the question of opening more primary schools in the Bangalore City is already engaging my attention and I am therefore of opinion that till the total cost can be estimated with fair accuracy

TH?

Letter No 390 dated 18th August 1914 from the Honorary President City Municipal Council Bangalore to the Inspector General of Education in Mysore

---

Reference - Your letter No 10742/1749 dated the/9th March last requesting to be furnished with my opinion in regard to the desirability of transferring the cost of all Primary Schools in the City to the Municipality

---

I have the honour to state that on a careful consideration of the financial condition of this Municipality by a special Committee appointed in para 9 of Government Proceedings No 4706-10 L F 43-98 dated the 4th June 1904 the Government in their Order No Fl 4815-21/M1 88-04-4 dated the 3rd February 1906 directed the transfer of certain charges on the lines now existing which reduced the expenditure in 1906-07 from Rs 12 722 to Rs 4456 In the absence of any unusual increase in the Municipal Revenuew and in the absence of other cogent reasons in my opinion it is premature to allow the question to be reopened I enclose herein the resolution of the Schools' Committee dated 25th June 1913 on the same subject in which I entirely agree

2 There is considerable difference between the conditions of Bangalore and Mysore Cities in this as in many other respects

The

The miscellaneous population inhabiting Bangalore has contributed to the activity of so many agencies in the spread of education as a glance at the number of schools would disclose Besides the expenditure which stood at Rs 4 456/- at the time of last settlement has since risen to Rs 5 567/- according to this year's Municipal budget The schools committee have now submitted proposals involving an additional expenditure of Rs 1 896 per annum

3 Under these circumstances I fear it is not possible to accept the proposals of the transfer of charges as indicated in your letter involving a very heavy extra expenditure in the existing state of Municipal finances which bear the burden of road maintenance and sanitary charges out of all proportion to the income

4 The Bangalore City may well lay claim to participate in the State grant for Primary Schools

Sir

With reference to your letter No 5162 dated 6th January 1917 regarding the apportionment of the cost of the Primary and Secondary Education in the Bangalore City between the Municipality and the Goverr -ment I have the honour to submit that the question is of a general character and has a bearing on other Municipal areas also and as such it has to be viewed comprehensively The question has however been engaging my attention for some time past and I shall before long sub- mit my proposals for the orders of Government

As regards the question of the scale of pay of masters in the Municipal schools I have already in my unofficial note of the 2nd May 1914 submitted my views on the subject and in the case of Primary Schools I am of opinion that the scales of pay and grants-in-aid - - sanctioned by Government in their Order No 3627-30/Edn 57-14-5 dated 30th March 1915 in connection with the scheme of Compulsory Education are generally suitable and may with advantage be adopted by the Municipality also

I have the honour to be
